

SPECIAL WASTE APPLICATION INSTRUCTION

Incomplete forms will delay the process of your application

Section A:

#1 Check **Initial** if this is your first application for a special waste permit for the waste you would like to dispose. Check **Recertification** and list prior approval number(s) if you have applied for a special waste permit previously.

Section B: Generator Information (this is where the special waste came from or who generated the special waste)

Section C: Customer/Billing Information (this is who will be responsible for paying for the disposal of the waste. If it is the same as the generator, enter "SAME")

Section D: Transporter/Shipping Information (this is who will be delivering the special waste to our site for disposal. If it is the same as the generator and customer, enter "SAME") Please be sure to answer #8, #9 and #10 in this section.

Section E: Waste Stream Information (this is the name of the special waste you intend to dispose of such as railroad ties, large dead animal etc.) Please check all that apply in this section.

Section F: Non-Hazardous Determination (this is if you have testing done to the special waste such as contaminated petroleum soil) For railroad ties and large dead animals, you may check "NOT APPLICABLE."

Section G: Generator Certification Statement by signing and dating this form, you are certifying that the information on the form is true and correct. All applications must be signed and dated for processing.

Please fax or e-mail completed forms to the appropriate site listed below.

For self-hauling special waste to West Van Material Recovery Center, Central Transfer and Recycling or Washougal Transfer station – fax to 360-737-9620 or 360-256-4136. You may also e-mail the completed form to Tinak@wcnx.org or Nicolet@wcnx.org

For special waste that will be serviced by Waste Connections Vancouver Hauling Company, please fax to 360-944-2380 or 360-449-8387.
