E-WASTE – ELECTRONICS RECYCLING PROGRAM

*****Available at Purdy, Hidden Valley and Prairie Ridge*****

What is E-Waste? E-Waste is just about anything electricity runs through. E-waste is a popular, informal name for electronic products nearing the end of their “useful life”. Computers, televisions, VCRs and more listed below are common electronic products. Many of these products can be reused, refurbished, or recycled. Unfortunately, electronic discards is one of the fastest growing segments of our nation’s waste stream. Many components or electronic equipment – including metals, plastic and glass – can be reused or recycled, while others may present environmental hazards if not managed correctly. It is our goal at LRI to manage this ever increasing waste efficiently and effectively.

Classifications of E-Waste:

Televisions \$40.00 each Computer Towers \$18.00 each Monitors (CRT's) \$18.00 each	All Other Electronics which are accepted free of charge at participating recycling centers			
	Cable Boxes Digital Cameras Stereos Fans DVD Players VCRs	Modems Fax Machines Printers Cell Phones Telephones Machinery	Transformers Mainframes Servers Military Scrap (no munitions or ordinance)	Electrical Components Communication Equipment Electrical Systems Circuit Boards Sealed Units (must be drained)

USED OIL RECYCLING PROGRAM

- Use a **clean** container for draining oil from your vehicle, boat or lawn mower. **HINT:** Use a reusable container (5 gallon maximum) with a good lid.
- Puncture and drain oil filters for 24 hours before throwing them in the garbage.
- **Never** mix oil with any other substance. Take solvents, gas, brake fluid, antifreeze, etc. to the Household Hazardous Waste site at the Tacoma Landfill. You may reach them at 253-591-5418.
- Oil must be in a transferable container. Oil containers must be recycled, reused or disposed of properly.
- Proper disposal of the oil container requires draining container upside down for 24 hours before placing in garbage. Garbage rates will apply to the disposal of oil containers.
- Disposal limit is five (5) gallons per trip.
- LRI will accept used oil at the following locations, free of charge:

Purdy Transfer Center • 14515 54th Avenue NW • Gig Harbor

Hidden Valley Transfer Station • 17925 Meridian Street East • Puyallup

RECYCLING

Recycling provides a good feedstock of materials to mills for making new products. For this reason, all recyclables must be clean and sorted as outlined below. Contaminated or unsorted materials will be thrown away instead of recycled, so it is up to you to make sure that what you put in the recycling boxes is really ready to be recycled.

PLASTIC BAGS ARE NOT ACCEPTED.
