1.0 PUBLIC PARTICIPATION PLAN

This Public Participation Plan is for the April 22, 2021 teleconference video meeting and is based upon the Public Participation Plan for the March 4, 2021 teleconference video meeting. This PPP incorporates minor changes including the revised teleconference meeting date, revised links to the April 22, 2021 meeting and updated contact information. These revisions are provided in a redline strikeout format.

1.1 INTRODUCTION AND OBJECTIVE

This Public Participation Plan (PPP) has been developed for the proposed NYSDEC Solid Waste Management Permit modification for the Waste Connections 50th Street Transfer Station (Transfer Station). The PPP has been prepared in accordance with the New York State Department of Environmental Conservation (DEC) Commissioner Policy-29, Environmental Justice and Permitting (C-29).

The objective of this PPP is to address environmental justice concerns and ensure public participation in the DEC environmental permit review process by the impacted community.

The PPP will inform the affected community of the solid waste permit modification application process and will promote public communication and understanding of the permit modification application process.

1.2 PROJECT DESCRIPTION AND PROPOSED ACTIONS

Waste Connections of New York, Inc. (“Waste Connections”) is seeking to modify its transfer station’s permit, located at 110-120 50th Street, Brooklyn, New York 11232. The Permit currently allows the Facility to receive up to 1,075 tons per day (TPD) of Putrescible Solid Waste (PSW) and store up to two thousand cubic yards (2,000 CY) of PSW. Waste Connections is seeking the addition of Construction and Demolition (C&D) material with no modification to the tonnage received per day or storage. Waste Connections is requesting the ability to accept the following combination of throughput:

- 0 to 1,075 TPD of PSW or
- 0 to 1,075 TPD of C&D Debris or
- 0 to 1,075 TPD of PSW and C&D Debris

The Facility is requesting the ability to store up to 2,000 CY of PSW and up to 1,000 CY of C&D Debris but will not exceed a total of 2,000 CY of any combination of PSW and C&D stored at any one time.

1.3 STAKEHOLDERS AND CONTACT LIST

Per New York State Department of Environmental Conservation’s (NYSDEC) recommendations a contact list of interested and affected parties has been developed (refer to Appendix A). The list includes local government and elected officials; owners, residents and occupants who live within a 0.25 mile foot radius of the Transfer Station. Refer the Figure 1 below for an illustration of the 0.25 mile foot radius of the Transfer Station.

This list will be used to communicate and disseminate information about the permit modification with the affected community and stakeholders.

The contact list will continue to be updated on an ongoing basis through attendance sheets completed at the teleconference video meeting, receipt of public comments, and with contacts of individuals expressing interest in the permit modification.

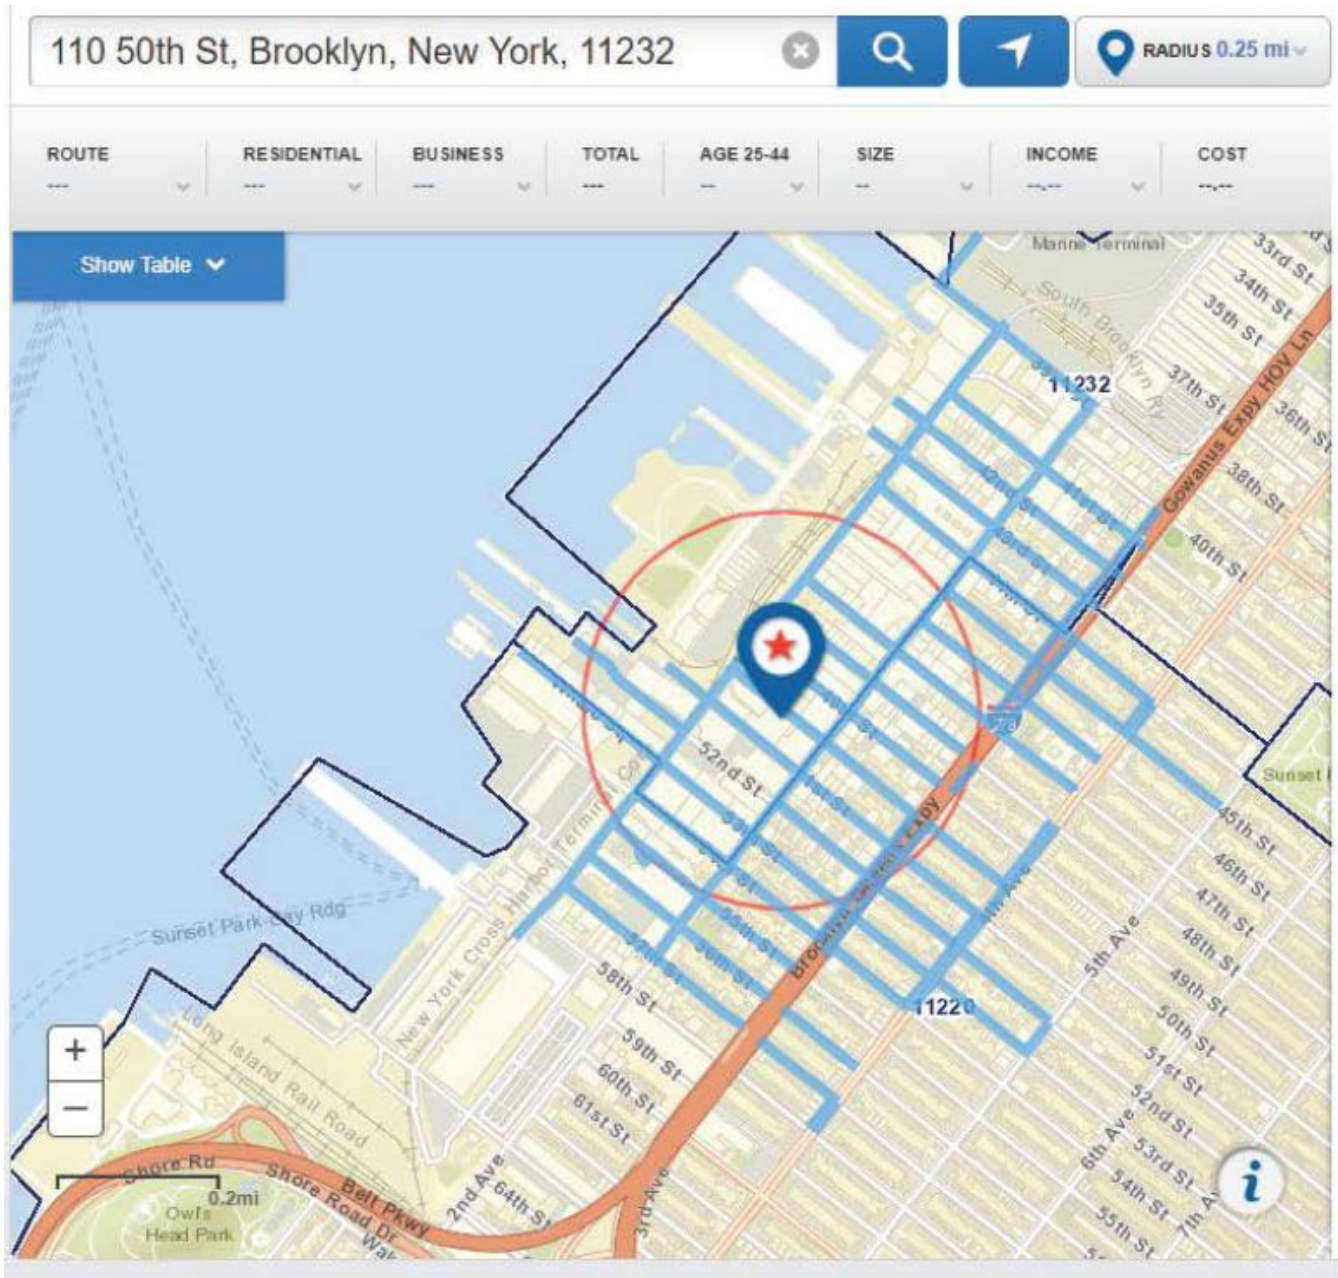

Figure 1: 0.25 mile foot radius around the Waste Connections 50th Street Transfer Station.

1.4 PUBLIC OUTREACH ACTIVITIES

Commissioner's Policy 29 (CP 29) contains provisions that require public gatherings, which could impair the health and well-being of persons attending such meetings. To satisfy the public outreach requirements of CP 29 during the COVID-19 pandemic during which public gatherings are not allowed, Waste Connections has planned the following outreach activities:

- Planning and holding a teleconference video meeting in place of a public meeting;
- Preparing and circulating a teleconference video notice/invitation (both in English and Spanish) encouraging the surrounding community and stakeholders to attend the teleconference video meeting;

- Preparing and disseminating a fact sheet (both in English and Spanish) about the project. All fact sheets will consist of a summary of the application, directions on how to obtain the application materials on a publicly available website, instructions on how to access the tele or video conference, instructions on how to submit questions or comments via email, writing or telephone and the deadline for submitting those questions.
- Prepare a dedicated, publicly accessible website, to publish all application and related documents.

It is the objective of the teleconference video meeting notice/invitation, fact sheets, company website, and video or teleconference meeting to provide ample information and direct communication to the individuals and groups who live or work in the vicinity of the transfer station.

In addition, Waste Connection has designated Andy Moss, Northeast Division Government Affairs Manager to coordinate and response to inquiries on the project. Mr. Moss can be reached by phone at (718) 665-0770 or by email at andy.moss@wasteconnections.com
