1. The objective of this Project is to continue providing waste disposal services at Waste Connections of Canada (WCC) Navan Recycling and Waste Disposal Facility (Navan WRDF). Do you have any comments regarding the objective of this Project?

2. To select the preferred design concept during the EA to provide additional disposal capacity, various aspects or components of the environment will be studied and used to compare and assess potential environmental impacts of the alternative design concepts. The table on the following page lists the proposed environmental, social, and technical components being considered for this comparison and impact assessment.

Please tell us how these rank in importance to you on the next page by placing an **X** in the appropriate column for each component.

Environmental Component	Environmental Sub-components, where relevant	Very Important	Important	Less Important
<b>Atmosphere</b>	Air quality (including dust, odour & greenhouse gases)			
	Noise			
<b>Geology &amp; Hydrogeology</b>	Groundwater quality			
<b>Surface Water</b>	Surface water quality			
	Surface water quantity			
<b>Natural Environment</b>	Aquatic ecosystems			
	Terrestrial ecosystems			
<b>Land Use Planning</b>	--			
<b>Cultural Heritage Resources</b>	Archaeological resources			
	Cultural heritage landscapes			
	Built heritage resources			
<b>Socio-Economic</b>	Local economy			
	Residents and community			
<b>Visual</b>	Visual aesthetics			
<b>Transportation</b>	Traffic			
<b>Design &amp; Operations</b>	Engineered containment			
	Financial			

3. Is there any aspect of the environment we may have missed?

4. Do you have any comments regarding the Preliminary Study Areas or Work Plans presented for each environmental component or sub-component?

5. Do you have any comments regarding the Potential Area for the Development of Additional Disposal Capacity as presented at Open House #2?

6. Were you provided with enough information at Open House #2 to understand the Project being proposed by Waste Connections? If not, please explain what additional information you were seeking.

All personal information included in a submission – such as name, address, telephone number and property location – is collected, maintained, and disclosed by the Ministry of the Environment, Conservation and Parks (MECP) for the purpose of transparency and consultation. The information is collected under the authority of the *Environmental Assessment Act* or is collected and maintained for the purpose of creating a record that is available to the general public as described in section 37 of the *Freedom of Information and Protection of Privacy Act*. Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential. For more information, contact the MECP Freedom of Information and Privacy Coordinator.

You can provide comments on the Terms of Reference Open House #2 or direct any questions you may have about the Project by email or phone to:
